A

Aguilera-Morelos AA. (Loyola-Rodriguez, Santos-Diaz, Zavala-Alonso, Davila-Perez, Olvera-Delgado, Patino-Marin, Leon-Cobian) Oral rehabilitation under dental general anesthesia, conscious sedation, and conventional techniques in-patients affected by cerebral palsy, No. 4, p. 279

Akasaka M. (Niikuni, Nakajima) The relationship between tongue-base position and craniofacial morphology in preschool children, No. 2, p. 131

Akay C. (Ersin, Candan, Alpoz) Mesiodens in primary, mixed and permanent dentitions: a clinical and radiographic study, No. 4, p. 295

Akiyama A. (Yawaka, Hironaka, Matzuduka, Takasaki, Oguchi) Changes in occlusal contact area and average bite pressure during treatment of anterior crossbite in primary dentition, No. 1, p. 75

Alamoudi N. (Farsi, Faris, Masoud, Merdad, Meisha) Salivary characteristics of children and its relation to oral microorganism and lip mucosa dryness, No. 3, p. 241

Alpaslan C. (Cetiner) Long-term effects of cancer therapy on dental development: a case report, No. 4, p. 351

Alpoz, AR. (Ersin, Candan, Akay) Mesiodens in primary, mixed and permanent dentitions: a clinical and radiographic study, No. 4, p. 295

Al-Salihi KAM. (Gopinath, Yean, Ann, Ravichandran) Amelogenesis imperfecta: enamel ultra structure and molecular studies, No. 4, p. 319

Ambrosano GMB. (Pardi, Pereira, Mialhe, Menehim) Six-year clinical evaluation of polyacid-modified composite resin used as fissure sealant, No. 3, p. 261

Angle SDM. (Martin, Nickte-ha) Primitive neuroectodermal tumor in the jaw: report of a case, No. 2, p. 167

Ann MCL. (Gopinath, Al-Salihi, Yean, Ravichandran) Amelogenesis imperfecta: enamel ultra structure and molecular studies, No. 4, p. 319

Anselmo-Lima WT. (Mattar, Valera, Matsumoto) Skeletal and occlusal characteristics in mouth breathing pre-school children, No. 4, p. 315

Araleh M. (White) Tongue scrapping as a means of reducing oral mutans streptococci, No. 2, p. 163

Aysegul O. (Dilek, Elgin) The effects of different application techniques and orifices on the amount of dentifrice, No. 4, p. 343

B

Babu KLG. (Rai, Hegde) Tuberous sclerosis: a case report, No. 4, p. 347

Balakrishan P. (Batra, Roychoudhury, Parkash) Bilateral dentigerous cyst associated with polymorphism in chromosome 1qh+, No. 2, p. 177

Bassiouny MA. (Zarrinnia) Dental erosion: a complication of Pervasive Developmental Disorder, No. 3, p. 277

Batra P. (Duggal, Kharbanda, Parkash) Orthodontic treatment of impacted anterior teeth due to odontomas: a report of two cases, No. 4, p. 289

Bata P. (Roychoudhury, Balakrishan, Parkash) Bilateral dentigerous cyst associated with polymorphism in chromosome 1qh+, No. 2, p. 177

Beighton P. (Jeftha, Stephen, Morkel) Crouzono-dermoskeletal syndrome, No. 2, p. 173

Beighton P. (Wicomb, Stephen) Dental implications of tooth-nail dysplasia (Witkop syndrome): a report of an affected family and an approach to dental management, No. 2, p. 107

Berger J. (Jacobson, Kravitz, Patel) Laser pediatric crowns performed without anesthesia: a contemporary technique, No. 1, p. 11

Berger J. (Jacobson, Kravitz, Ko) Laser pediatric class II composites utilizing no anesthesia, No. 2, p. 99

Berumen-Maldonado R. (Loyola-Rodriguez, Pozos-Guillen, Hernandez-Hernandez, Berumen-Maldonado, Patiño-Marin, Effectiveness of treatment with carbamide peroxide and hydrogen peroxide in subjects affected by dental fluorosis: a clinical trial, No. 1, p. 63

Bimstein E. (Mass, Kupietzky, Maye) Alveolar bone height in infraoccluded primary teeth, No. 3, p. 223

Bodner L. (Goldstein, Sarnat) Eruption cysts: a clinical report of 24 new cases, No. 2, p. 183

Bonjardim LR. (Gaviao, Carmagnani, Pereira, Castelo) Signs and symptoms of temporomandibular joint dysfunction in children with primary dentition, No. 1, p. 53

Bonjardim LR. (Pereira, Castelo, Neto, Gaviao) Evaluation of TMJ by conventional transcranial radiography and indirect digitized images to determine condylar position in primary dentition, No. 3, p. 235

Brook I. Microbiology and management of endodontic infections in children, No. 1, p 13

Bussadori SK. (Rego, Silva, Pinto, Pinto) Esthetic alternative for fluorosis blemishes with the usage of a dual bleaching system based on hydrogen peroxide at 35%, No. 2, p. 143

C

Carmagnani FG. (Bonjardim, Gaviao, Pereira, Castelo) Signs and symptoms of temporomandibular joint dysfunction in children with primary dentition, No. 1, p. 53

Castelo PM. (Bonjardim, Gaviao, Carmagnani, Pereira) Signs and symptoms of temporomandibular joint dysfunction in children with primary dentition, No. 1, p. 53

Castelo PM. (Pereira, Bonjadim, Neto, Gaviao) Evaluation of TMJ by conventional transcranial radiography and indirect digitized images to determine condylar position in primary dentition, No. 3, p. 235

Castro LC. (Galvao) Comparison of three different preparation methods in the improvement of sealant retention, No. 3, p. 251

Cetiner S. (Alpaslan) Long-term effects of cancer therapy on dental development: a case report, No. 4, p. 351

Chatziyanni A. (Kavadia-Tsatala, Sidiropoulou, Kaklamanos) Tooth transpositions, associated dental anomalies and treatment management in a sample of orthodontic patients, No. 1, p 19

Cheong, CHL. (King, Sanares) Van der Woude syndrome: a report of two cases, No. 3. p.271

Chevitarese AB. (Chevitarese, Chevitarese, Dutra) Titanium penetration in human enamel after TiF_4 application, No. 3, p. 257

Chevitarese ABA.(Tavares, Primo) Clinical complications associated to supernumerary teeth: report of two cases, No. 1, p 27

Chevitarese ABA.(Valle, Maia, Farinhas) Alternative rehabilitation treatment for a patient with ectodermal dysplasia, No. 2, p. 103

Chevitarese LM. (Chevitarese, Chevitarese, Dutra) Titanium penetration in human enamel after TiF_4 application, No. 3, p. 257

Chevitarese O. (Chevitarese, Chevitarese, Dutra) Titanium penetration in human enamel after TiF_4 application, No. 3, p. 257

Correa TM. (Filho, Mendes, Ozawa, Ferrari) Behavior of partially formed roots of teeth submitted to orthodontic movement, No. 2, p. 147

Cunha RF. (Matos, Marfinati) Dentistry for babies: why do parents seek dental care? No. 3, p. 193

D

Davila-Perez C. (Loyola-Rodriguez, Aguilera-Morelos, Santos-Diaz, Zavala-Alonso, Olvera-Delgado, Patino-Marin, Leon-Cobian) Oral rehabilitation under dental general anesthesia, conscious sedation, and conventional techniques in-patients affected by cerebral palsy, No. 4, p. 279

Defabianis P. Scleroderma: a case report of possible cause of restricted movement of the temporo-mandibular joint with effects on facial development, No. 1, p 33

Dilek T. (Aysegul, Elgin) The effects of different application techniques and orifices on the amount of dentifrice, No. 4, p. 343

Docimo R. (Giancotti, Radico) Mandibular pendex spring appliance for use in mixed dentition, No. 2, p. 95

Duggal R. (Batra, Kharbanda, Parkash) Orthodontic treatment of impacted anterior teeth due to odontomas: a report of two cases, No. 4, p. 289

Duggal R. (Jena, Roychoudhury, Parkash) Effects of timing and number of palate repair on maxillary growth in complete unilateral cleft lip and palate patients, No. 3, p. 227

Dutra PB. (Chevitarese, Chevitarese, Chevitarese) Titanium penetration in human enamel after TiF_4 application, No. 3, p. 257

E

Elgin E. (Aysegul, Dilek) The effects of different application techniques and orifices on the amount of dentifrice, No. 4, p. 343

Ersin NK. (Candan, Alpoz, Akay) Mesiodens in primary, mixed and permanent dentitions: a clinical and radiographic study, No. 4, p. 295

F

Farinhas JA. (Moraes, Gleiser, Primo) Delayed eruption of maxillary permanent central incisors as a consequence of mesiodens: a surgical re-treatment approach, No. 3, p. 201

Farinhas JA, (Valle, Chevitarese, Maia) Alternative rehabilitation treatment for a patient with ectodermal dysplasia, No. 2, p. 103

Faris J. (Almoudi, Farsi, Masoud, Merdad, Meisha) Salivary characteristics of children and its relation to oral microorganism and lip mucosa dryness, No. 3, p. 241

Farsi N. (Almoudi, Farsi, Masoud, Merdad, Meisha) Salivary characteristics of children and its relation to oral microorganism and lip mucosa dryness, No. 3, p. 241

Fernandes AS. (Sardessai) Gingival necrosis related to palatal expansion appliance: an unwanted sequelae, No. 1, p. 43

Ferrari Junior FM. (Filho, Mendes, Ozawa, Correa) Behavior of partially formed roots of teeth submitted to orthodontic movement, No. 2, p. 147

Filho OGS. (Lauris, Junior, Ozawa) Delayed formation of a lower second premolar, No. 4, p. 299

Filho OGS. (Mendes, Ozawa, Ferrari, Correa) Behavior of partially formed roots of teeth submitted to orthodontic movement, No. 2, p. 147

Flaitz C. (Hicks, Garcia-Godoy) Biological factors in dental caries: role of enamel structure and the caries process in the dynamic process of demineralization and remineralization (part 2), No. 2, p. 119

Flaitz C. (Hicks, Gacia-Godoy) Biological factors in dental caries: role of remineralization and fluoride in the dynamic process of demineralization and remineralization (part 3), No. 3, p. 205

Flaitz C. (Hicks, Garcia-Godoy) Biological factors in dental caries: role of saliva and dental plaque in the dynamic process of demineralization and remineralization (part 1), No. 1, p. 47

Florio FM. (Klien, Pereira, Goncalves) Time of initial acquisition of mutans streptococci by human infants, No. 4, p. 303

Folyayan MO. (Idehen) Factors influencing the use of behavioral management techniques during child management by dentists, No. 2, p. 155

Fukushima H. (Takada, Watanabeb, Ishida, Ogasawara, Motokawa) Occlusal guidance of two Kabuki make-up syndrome patients: case reports, No. 2, p. 113

G

Galvao AC. (Castro) Comparison of three different preparation methods in the improvement of sealant retention, No. 3, p. 251

Garcia-Godoy F. (Hicks, Flaitz) Biological factors in dental caries: role of enamel structure and the caries process in the dynamic process of demineralization and remineralization (part 2), No. 2, p. 119

Garcia-Godoy F. (Hicks, Flaitz) Biological factors in dental caries: role of remineralization and fluoride in the dynamic process of demineralization and remineralization (part 3), No. 3, p. 205

Garcia-Godoy F. (Hicks, Flaitz) Biological factors in dental caries: role of saliva and dental plaque in the dynamic process of demineralization and remineralization (part 1), No. 1, p. 47

Gaviao MBD. (Bonjardim, Gaviao, Carmagnani, Pereira, Castelo) Signs and symptoms of temporomandibular joint dysfunction in children with primary dentition, No. 1, p. 53

Gaviao MBD. (Pereira, Bonjardim, Castelo, Neto) Evaluation of TMJ by conventional transcranial radiography and indirect digitized images to determine condylar position in primary dentition, No. 3, p. 235

Gleiser R. (Moraes, Farinhas, Primo) Delayed eruption of maxillary permanent central incisors as a consequence of mesiodens: a surgical re-treatment approach, No. 3, p. 201

Giancotti A. (Radico / Docimo) Mandibular pendex spring appliance for use in mixed dentition, No. 2, p. 95

Giannoni M. (Monaco, Streni, Marci, Sabetti, Marzo) Relationship between mandibular deviation and ocular convergence, No. 2, p. 135

Goes MF. (Ramires-Romito, Reis, Loguerio, Grande) Micro-tensile bond strength of adhesive systems applied on occlusal primary enamel, No. 4, p. 333

Goldstein J. (Boner, Sarnat) Eruption cysts: a clinical report of 24 new cases, No. 2, p. 183

Goldvasser Y. (Julliard) Parental anxiety levels during pediatric induction with and without administration of premedication for general anesthesia, No. 1, p. 85

Goncalves RB. (Florio, Klien, Pereira) Time of initial acquisition of mutans streptococci by human infants, No. 4, p. 303

Gopinath VK. (Al-Salihi, Yean, Ann, Ravichandran) Amelogenesis imperfecta: enamel ultra structure and molecular studies, No. 4, p. 319

Grande RHM. (Ramires-Romito, Reis, Loguercio, Goes) Micro-tensile bond strength of adhesive systems applied on occlusal primary enamel, No. 4, p. 333

Guelmann M. (McEachern, Turner) Pulpectomies in primary incisors using three delivery systems: an *in vitro* study, No. 4, p. 323

Gurakan B. (Haydar, Tercan, Uckan) Congential gum synechiae as an isolated anomaly: a case report, No. 1, p. 81

H

Haydar SG. (Tercan, Uckan, Gurakan) Congential gum synechiae as an isolated anomaly: a case report, No. 1, p. 81

Hedge AM. (Babu, Rai) Tuberous sclerosis: a case report, No. 4, p. 347

Hegde AM. (Viswanath, Munshi) The removal of the smear layer using EGTA: a scanning electron microscopic study, No. 1, p. 69

Hernandez-Hernandez F. (Loyola-Rodriguez, Pozos-Guillen, Berumen-Maldonado, Patiño-Marin) Effectiveness of treatment with carbamide peroxide and hydrogen peroxide in subjects affected by dental fluorosis: a clinical trial, No. 1, p. 63

Hicks J. (Garcia-Godoy, Flaitz) Biological factors in dental caries: role of enamel structure and the caries process in the dynamic process of demineralization and remineralization (part 2), No. 2, p. 119

Hicks J. (Garcia-Godoy, Flaitz) Biological factors in dental caries: role of remineralization and fluoride in the dynamic process of demineralization and remineralization (part 3), No. 3, p. 205

Hicks J. (Garcia-Godoy, Flaitz) Biological factors in dental caries: role of saliva and dental plaque in the dynamic process of demineralization and remineralization (part 1), No. 1, p. 47

Hironaka S. (Yawaka, Akiyama, Matzuduka, Takasaki, Oguchi) Changes in occlusal contact area and average bite pressure during treatment of anterior crossbite in primary dentition, No. 1, p. 75

Hisamitsu H. (Yoshimot, Itoh, Manabe, Inoue, Sasa) Efficacy of a self-etching dentin primer composed of TEGMA and phenyl-P, No. 3, p. 265

Honda O. (Kanehira, Takeara, Takahashi, Morita) Prevalence of oral malodor and its relationship with habitual mouth breathing in children, No. 4, p. 285

I

Ida-Yonemochi H. (Sano, Tomizawa, Tanabe, Noda) Congenital defect of maxillary primary central incisor associated with exposed pulp and gingival: case report, No. 1, p. 39

Idehen E. (Folayan) Factors influencing the use of behavioral management techniques during child management by dentists, No. 2, p. 155

Ishida M. (Takada, Fukushima, Watanabeb, Ogasawara, Motokawa) Occlusal guidance of two Kabuki make-up syndrome patients: case reports, No. 2, p. 113

Inoue M. (Yoshimot, Itoh, Manabe, Hisamitsu, Sasa) Efficacy of a self-etching dentin primer composed of TEGMA and phenyl-P, No. 3, p. 265

Itoh K. (Yoshimot, Manabe, Inoue, Hisamitsu, Sasa) Efficacy of a self-etching dentin primer composed of TEGMA and phenyl-P, No. 3, p. 265

Title index

A

A biological conservative approach to complex dento-alveolar traumatic lesions, Enrico Spinas, No. 1, p. 1

Alternative rehabilitation treatment for a patient with ectodermal dysplasia, Daniella Della Valle / Ana Beatriz Alonso Chevitarese / Lucianne Cople Maia / Jai Alfredo Farinhas, No. 2, p. 103

Alveolar bone height in infraoccluded primary teeth, Eliyahu Mass / Ari Kupietzky / F. Maye / Enrique Bimstein, No. 3, p. 233

Amelogenesis imperfecta: enamel ultra structure and molecular studies, V.K.Gopinath / K. A. M. Al –Salihi / Chan Yean Yean / Melissa Chan Li Ann / M. Ravichandran, No. 4, p. 319

A simplified technique for the restoration of severely mutilated primary anterior teeth, A. Mortada / N.M. King, No. 3, p. 187

B

Behavior of partially formed roots of teeth submitted to orthodontic movement, Omar Gabriel da Silva Filho / Olívia de Freitas Mendes /Terumi Okada Ozawa / Flávio Mauro Ferrari Junior / Tatiana Mattosinho Correa, No. 2, p. 147

Bilateral dentigerous cyst associated with polymorphism in chromosome 1qh+, Puneet Batra / Ajoy Roychoudhury / Prahlad Balakrishan / Hari Parkash, No. 2, p. 177

Biological factors in dental caries: role of enamel structure and the caries process in the dynamic process of demineralization and remineralization (part 2), John Hicks / Franklin Garcia-Godoy / Catherine Flaitz, No. 2, p 119

Biological factors in dental caries: role of remineralization and fluoride in the dynamic process of demineralization and remineralization (part 3), John Hicks / Franklin Garcia-Godoy / Catherine Flaitz, No. 3, p. 205

Biological factors in dental caries: role of saliva and dental plaque in the dynamic process of demineralization and remineralization (part 1), John Hicks / Franklin Garcia-Godoy / Catherine Flaitz, No. 1, p. 47

C

Changes in occlusal contact area and average bite pressure during treatment of anterior crossbite in primary dentition, Yasutaka Yawaka / Syouji Hironaka / Akemi Akiyama / Ikuko Matzuduka / Chihiro Takasaki / Haruhisa Oguchi, No. 1, p. 75

Clinical complications associated to supernumerary teeth: report of two cases, Ana Beatriz Alonso Chevitarese / Claudia Maria Tavares / Laura Primo, No. 1, p. 27

Comparison of three different preparation methods in the improvement of sealant retention, Laura Camacho Castro / Ana Claudia Galvao, No. 3, p. 251

Comparison of three methods for detection of carious lesions in proximal surfaces versus direct visual examination after tooth separation, Fabio Luiz Mialhe / Antonio Carlos Pereira / Marcelo de Castro Meneghim, No. 1, p. 59

Comparative clinical evaluation of slot versus dovetail class III composite restorations in primary anterior teeth, Chutima Trairatvorakul / Supatcharin Piwat, No. 2, p. 125

Congenital defect of maxillary primary central incisor associated with exposed pulp and gingival: case report, Tomiko Sano / Mieko Tomizawa / Hiroko Ida-Yonemochi / Yoshihiro Tanabe / Tadashi Noda, No. 1, p. 39

Congential gum synechiae as an isolated anomaly: a case report, Seda Gursoy Haydar / Aylin Tercan / Sina Uckan / Berkan Gurakan, No. 1, p. 81

Crouzonodermoskeletal syndrome, A. Jeftha / L. Stephen / J.A. Morkel / P. Beighton, No. 2, p. 173

D

Delayed eruption of maxillary permanent central incisors as a consequence of mesiodens: a surgical re-treatment approach, Renata Simões Moraes / João Alfredo Farinhas / Rogerio Gleiser / Laura Guimarães Primo, No. 3, p. 201

Delayed formation of a lower second premolar, Omar Gabriel da Silva Filho / Rita de Cássia Moura Carvalho Lauris / Flávio Mauro Ferrari Júnior / Terumi Okada Ozawa, No. 4, p. 299

Dental erosion: a complication of Pervasive Developmental Disorder, Mohamed A. Bassiouny / Kourosh Zarrinnia, No. 3, p. 277

Dental implications of tooth-nail dysplasia (Witkop syndrome): a report of an affected family and an approach to dental management, G.M. Wicomb / L.X.G. Stephen / P. Beighton, No. 2, p. 107

Dentistry for babies: why do parents seek dental care? Robinson Frederico Cunha / Jaqueline Xavier Matos / Suzimary Moya A.P. Marfinati, No. 3, p. 193

E

Effects of timing and number of palate repair on maxillary growth in complete unilateral cleft lip and palate patients, Ashok Kumar Jena / Ritu Duggal / Ajoy Roychoudhury / Hari Parkash, No. 3, p. 227

Effectiveness of treatment with carbamide peroxide and hydrogen peroxide in subjects affected by dental fluorosis: a clinical trial, Juan Pablo Loyola-Rodriguez, Amaury de Jesus Pozos-Guillen, Felipe Hernandez-Hernandez, Rocio Berumen-Maldonado, Nuria Patiño-Marin, No. 1, p. 63

Efficacy of a self-etching dentin primer composed of TEGMA and phenyl-P, Shinichiro Yoshimot / Kazuo Itoh / Atsufumi Manabe / Mitsuko Inoue / Hisashi Hisamitsu / Ryuuji Sasa, No. 3, p. 265

Eruption cysts: a clinical report of 24 new cases, Lipa Bodner / Jed Goldstein / Haim Sarnat, No. 2, p. 183

Esthetic alternative for fluorosis blemishes with the usage of a dual bleaching system based on hydrogen peroxide at 35%, Sandra Kalil Bussadori / Marcos Augusto do Rego / Patrícia Eberson da Silva / Marcelo Mendes Pinto/ Antonio Carlos Guedes Pinto, No. 2, p. 143

Evaluation of TMJ by conventional transcranial radiography and indirect digitized images to determine condylar position in primary dentition, Luciano José Pereira / Leonardo Rigoldi Bonjardim / Paula Midori Castelo / Francisco Haiter Neto / Maria Beatriz Duarte Gavião, No. 3, p. 235

F

Factors influencing the use of behavioral management techniques during child management by dentists, M.O. Folayan / E. Idehen, No. 2, p. 155

G

Gingival necrosis related to palatal expansion appliance: an unwanted sequelae, Gauri Sardessai / Aquaviva S. Fernandes, No. 1, p. 43

Growth changes of general and dental health status in Taiwanese children from mixed to early permanent dentition, Hung-Huey Tsai / Kuo-Ting Sun, No. 4, p. 311

L

Laser pediatric class II composites utilizing no anesthesia, B. Jacboson / J.Berger / R. Kravitz / J. Ko, No. 2, p. 99

Laser pediatric crowns performed without anesthesia: a contemporary technique, B. Jacboson / J. Berger / R. Kravitz / P. Patel, No. 1, p. 11

Long-term effects of cancer therapy on dental development: a case report, Sedat Cetiner / Cansu Alpaslan, No. 4, p. 351

Long term effects of the palatal plate therapy for the orofacial regulation in children with Down syndrome, V. Zavaglia / A. Nori / N.M. Mansour, No. 1, p. 89

M

Management of a large dentigerous cyst occurring in a six-year-old boy, Juliana Yuri Kawamura / Roberto Pereira de Magalhaes / Suzana C. O. M. Sousa / Marina H. C. G. Magalhaes, No. 4, p. 355

Mandibular pendex spring appliance for use in mixed dentition, Aldo Giancotti / Paola Radico / Raffaella Docimo, No. 2, p. 95

Maximum bite force and related dental status in children with deciduous dentition, Hung-Huey Tsai, No. 2, p. 139

Mesiodens in primary, mixed and permanent dentitions: a clinical and radiographic study, Nazan Kocatas Ersin / Umit Candan / Ali Riza Alpoz / Cemal Akay, No. 4, p. 295

Microbiology and management of endodontic infections in children, Itzhak Brrok, No. 1, p. 13

Micro-tensile bond strength of adhesive systems applied on occlusal primary enamel, Ana Cláudia Ramires-Romito / Alessandra Reis / Alessandro Dourado Loguercio / Mário Fernando de Góes / Rosa Helena Miranda Grande, No. 4, p. 333

Mutans streptococci, Lactobacilli in saliva and acidity from organism in dental plaque: changes after restorative treatment, Takanohu Morinushi / Michiko Murayama / Sachiko Kinjyo, No. 4, p. 327

O

Occlusal guidance of two Kabuki make-up syndrome patients: case reports, Keisuke Takada / Hidefumi Fukushima / Shinichirou Watanabeb / Makiko Ishida / Hideki Ogasawara / Wataru Motokawa, No. 2, p. 113

Oral rehabilitation under dental general anesthesia, conscious sedation, and conventional techniques in-patients affected by cerebral palsy, Juan Pablo Loyola-Rodriguez / Ana Alicia Aguilera-Morelos / Miguel Angel Santos-Diaz / Veronica Zavala-Alonso / Claudia Davila-Perez / Honorio Olvera-Delgado / Nuria Patiño-Marin / Iris De Leon-Cobian, No.4, p. 279

Orthodontic treatment of impacted anterior teeth due to odontomas: a report of two cases, Puneet Batra / Ritu Duggal / Om Prakash Kharbanda / Hari Parkash, No. 4, p. 289

P

Panoramic radiographic findings of the mandibular foramen from deciduous to early permanent dentition, Hung-Huey Tsai, No. 3, p. 217

Parental anxiety levels during pediatric induction with and without administration of premedication for general anesthesia, Yuri Goldvasser / Kell Julliard, No. 1, p. 85

Prevalence of oral malodor and its relationship with habitual mouth breathing in children, Takashi Kanehira / Junji Takehara / Dairo Takahashi / Okahito Honda / Manabu Morita, No. 4, p. 285

Primitive neuroectodermal tumor in the jaw: report of a case, Toranzo Fernández José Martin / Salgado-García Nickte-ha / Santos-Díaz Miguel Ángel, No. 2, p. 167

Pulpectomies in primary incisors using three delivery systems: an *in vitro* study, Marcio Guelmann / Monique McEachern / Clara Turner, No. 4, p. 323

R

Relationship between mandibular deviation and ocular convergence, A. Monaco / O. Streni / M.C. Marci / L. Sabetti / G. Marzo / M. Giannoni, No. 2, p. 135

Resin bonded metal plate as a splint for fractured restored teeth: a case report, Ali Mirfazaelian, No. 3, p. 197

S

Scleroderma: a case report of possible cause of restricted movement of the temporomandibular joint with effects on facial development, Patrizia Defabianis, No. 1, p. 33

Salivary characteristics of children and its relation to oral microorganism and lip mucosa dryness, Najlaa Alamoudi / Najat Farsi / Jamila Faris / Ibrahim Masoud / Khaled Merdad / Dalia Meisha, No. 3, p. 241

Signs and symptoms of temporomandibular joint dysfunction in children with primary dentition, Leonardo Rigoldi Bonjardim / Maria Beatriz Duarte Gaviao / Fabiola Grammatico Carmagnani / Luciano Jose Pereira / Paula Midori Castelo, No. 1, p. 53

Six-year clinical evaluation of polyacid-modified composite resin used as fissure sealant, Vanessa Pardi / Antonio Carlos Pereira / Fábio Luiz Mialhe / Marcelo de Castro Meneghim / Gláucia Maria Bovi Ambrosano, No. 3, p. 261

Skeletal and occlusal characteristics in mouth breathing pre-school children, Sara Elisa M. Mattar / Wilma T. Anselmo-Lima / Fabiana C.P. Valera / Mirian Aiko Nakane Matsumoto, No. 4, p. 315

T

The relationship between tongue-base position and craniofacial morphology in preschool children, Naoko Niikuni / Ichiro Nakajima / Morito Akasaka, No. 2, p. 131

The removal of the smear layer using EGTA: a scanning electron microscopic study, Deepak Viswanath / Amitha M Hegde /A.K. Munshi, No. 1, p. 69

Time of initial acquisition of mutans streptococci by human infants, Flavia Martao Florio / Marlise Inez Klein / Antonio Carlos Pereira / Reginaldo Bruno Goncalves, No. 4, p. 303

The effect of glove contamination on the bond strength of resin to enamel, Brian J. Sanders / Adam Pollock / James A. Weddell / Keith Moore, No. 4, p. 339

The effects of different application techniques and orifices on the amount of dentifrice, Olmez Aysegul / Tufekcioglu Dilek / Erdemli Elgin, No. 4, p. 343

Titanium penetration in human enamel after TiF, application, Ana Beatriz Chevitarese / Orlando Chevitarese / Leila Maria Chevitarese / Paulo Bechara Dutra, No. 3, p. 257

Tooth transpositions, associated dental anomalies and treatment management in a sample of orthodontic patients, S. Kavadia-Tsatala / S. Sidiropoulou / E.G. Kaklamanos / A. Chatziyanni, No. 1, p. 19

Tongue scrapping as a means of reducing oral mutans streptococci, Mirna Armaleh / George E. White, No. 2, p. 163

Tuberous sclerosis: a case report, K.L. Girish Babu / Kavitha Rai / Amitha M. Hegde, No. 4, p. 347

V

Van der Woude syndrome: a report of two cases, N.M. King / C.H.L. Cheong / A.M.E. Sanares, No. 3, p. 271
